EMPLOYEE SPOTLIGHT

Kevin D. Quinn

Kevin grew up in Erlanger and still very proud to call it home today. Kevin is married to his wife Denise of 20 years. They have 3 grown children and 4 grandchildren, son Dustin (Erica), granddaughters Kinsley (7) and Blakely (4), son Bryan (Stephanie), twins Amelia and Owen (1) and also a daughter Peyton who has started her second year at UK studying accounting.

Kevin's current position is Project Administrator and is closing in on his 8th year with the department.

Kevin enjoys traveling, sports (UK), golf and spending time with the entire family hanging out by the pool.

PROGRAMS

STREET SWEEPING

The Public Works Department is responsible for sweeping all City maintained streets along with various State Routes four (4) times annually.

The next round of sweeping is scheduled for the last week of August. This round will be for sweeping the corridor of the city, this includes Dixie Highway, Commonwealth Avenue and Baker Street.

The next full round of street sweeping is scheduled for October. This will include all of the city streets in Erlanger.

PROGRAMS

STREET MAINTENANCE

Spire Circle

Team members were able to take advantage of the good weather in August and made some needed repairs to some of the streets. Here is a couple of the repairs that were made on Spire Circle and Hope Lane.

Hope Lane

PROGRAMS

Parks Maintenance

After all the rebuild was done on the deck, team members determined that the path that leads to the deck needed repaired as well. Here team members are saw cutting and removing old asphalt that needs to be replaced. New asphalt was added and a fresh sealcoat was then applied to finish this project.

PROGRAMS

Parks Maintenance

The Erlanger Public Works would like to thank you for your patience while the deck was being rebuilt at the lake in Flagship Park. After a lengthy wait for the correct parts to come in, the deck has been completed. I think you will agree that the wait was well worth it, the deck looks exceptional. The deck has passed it's final inspection and is opened to the public, so go out and enjoy your newest addition to the park.

PROGRAMS

Parks Maintenance

Did you know?

Changing your mower height settings can help your lawn be more tolerant to the heat. Try to cut your grass to about the 3 inches in height instead of 2 inches, because shorter grass is more likely to turn brown, due to drought stress. Never cut more than one-third of the grass blade at a time, and be sure to keep your mower blades sharp. Dull blades make the grass look unattractive and it can cause the grass to lose water faster. Longer grass blades require less water therefore they will look better longer when dealing with higher temperatures.

PROGRAMS

Parks Maintenance

Team members replaced a large section of the sidewalk on Crescent Avenue near the entryway to the parking lot nearest the small baseball field. This was done in anticipation of a future project that will be done in this area of Silverlake Park.

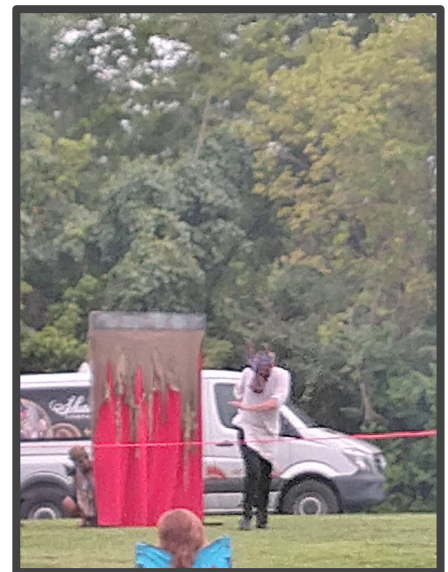

PROGRAMS

Community Involvement

The City of Erlanger, Kim Wolking and the Public Works Department provided the residents of Erlanger “Shakespeare in the Park” with the performance “ A Midsummer Night’s Dream” on Friday August 14th at Flagship Park.

PROGRAMS

SIDEWALK REPLACEMENT

The F/Y 21 Sidewalk Replacement Program will begin the week of September 1st weather permitting. This year we will begin on Kirby Court and then onto Greenfield Lane. Humphrey Concrete will be the contractor for this project.

CAPITAL IMPROVEMENT PROJECTS

Street Improvement Projects

F/Y 21 street improvement projects will begin the week of September 1st weather permitting. This project will include the concrete portion of Carriage Hill Drive, Delphi Drive, Mesa Drive and Valleywood Court. We are anticipating the completion of Carriage Hill, Delphi and Valleywood by end of construction season with Mesa completed in the spring.

Delphi Drive

CAPITAL IMPROVEMENT PROJECTS

Street Improvement Projects

Carriage Hill Drive

Mesa Drive

Anniversary

Assistant Director, Ed Millican
will celebrate his 21st year
with the Public Works
Department on September
20th.

Birthday

Bob Martin will
celebrate a birthday on
September 19.

Training

On August 21st the Public Works Department conducted their monthly Technical and Leadership Training in the Council Chambers.

This month Jason James talked about the importance of small equipment maintenance, focusing on weed eaters.

Leadership Training followed with the Team concentrating on "The Law Of Respect" and "The Law of Intuition". Both of these topics generated great discussion amongst the group.
